ATCHI VAMSI KRISHNA REDDY

Visakhapatnam, Andhra Pradesh
vamc.5143@gmail.com | 9951004199

Summary

Frontend Software Developer with 4 years of experience building scalable, high-performance web applications in the logistics domain. Expert in React.js, JavaScript (ES6+), TypeScript, and modern state management. Proven ability to convert Figma designs into pixel-perfect, responsive UI and optimize applications for performance, cross-browser compatibility, and maintainability. Strong collaborator in Agile environments with hands-on experience in testing, REST API integration, and modular component architecture.

Skills

Frontend: React.js, JavaScript(ES6+), TypeScript, HTML5, CSS3, Responsive Design
State Management: Redux Toolkit, Context API
Styling/UI: Tailwind CSS, Material UI, CSS Modules, Sass, Pixel-perfect UI Implementation
Backend: REST APIs, JSON (working knowledge)
Testing: Playwright, React Testing Library (RTL), Jest
Performance: Code Splitting, Lazy Loading, Performance Optimization
DevOps/Tools: Git, GitHub, Docker, Docker Compose, Vite, Agile, Scrum

Professional Experience

Software Engineer 3 2025 – Current
Imaginnovate, Visakhapatnam

- Built reusable UI components and optimized performance for high-traffic logistics platforms.
- Translated Figma designs into pixel-perfect, responsive React components.
- Improved page load performance through code-splitting, lazy loading, and bundle optimization, reducing initial load time.
- Ensured cross-browser compatibility and mobile responsiveness across major devices.
- Built modular and reusable component architecture to improve development velocity.
- Automated UI testing using Playwright and improved code quality through reviews.

Software Engineer 1 2023 – 2025
Imaginnovate, Visakhapatnam

- Developed and maintained responsive, component-based web applications using ReactJS.
- Integrated RESTful APIs and handled JSON data efficiently for dynamic UI rendering.
- Improved UI/UX performance and user engagement.
- Collaborated with backend teams to ensure seamless API integration.
- Worked closely with cross-functional teams for feature delivery.

ReactJS Trainee 2022
Imaginnovate, Visakhapatnam

- Built dynamic React applications using hooks and props.
- Developed interactive UI components and strengthened modern frontend workflows.
- Gained hands-on experience with Git, VS Code, and browser dev tools.

Intern 2022
Imaginnovate, Visakhapatnam

- Strengthened fundamentals in HTML, CSS, and JavaScript.
- Worked on UI enhancements and small-scale web page designs.
- Learned version control (Git) and responsive design principles.

Projects

Health Goal Microservice (MACH Architecture)

- Designed and implemented a MACH-compliant health goal microservice using Node.js, Express, and MongoDB with full CRUD REST APIs.
- Built a decoupled React (Vite) frontend to consume the service, following headless architecture principles.
- Containerized the backend using Docker and Docker Compose to enable cloud-native deployment and isolated environments.
- Implemented robust validation using Joi and structured error handling with proper HTTP status codes.
- Wrote comprehensive unit and integration tests using Jest and Supertest covering all CRUD scenarios.
- **Technologies:** Node.js, Express.js, MongoDB, React, Vite, Joi, Docker, Docker Compose, Jest, Supertest

FleetEnable – Logistics SaaS Platform

- Built and maintained the frontend for a high-traffic logistics platform used for drayage and freight management workflows.
- Built scalable, reusable React components and optimized complex data-driven UI screens for performance and usability.
- Integrated multiple REST APIs and handled dynamic JSON data for real-time shipment and workflow visibility.
- Improved UI reliability through automated testing using Playwright and React Testing Library.
- Ensured cross-browser compatibility and responsive design across desktop and tablet devices.
- **Technologies:** React, JavaScript, REST APIs, Playwright,

Donor Management System

- Built responsive UI from scratch ensuring smooth data flow and intuitive UX.
- Implemented modular component structure for maintainability.
- **Technologies:** React, Redux, Vite

Blended Sense

- Developed responsive landing page and implemented login authentication flows.
- Enhanced user experience and frontend security practices.
- **Technologies:** React, Redux, Vite, OAuth

Additional Knowledge

- Hands-on with Three.js, React Three Fiber, and custom WebGL/GLSL shaders (interactive 3D portfolio).
- Animations and micro-interactions with Framer Motion; working knowledge of Next.js (SSR/SSG).
- Basic SEO best practices; familiar with GraphQL query patterns and API integration.

Education

M.Tech, Industrial Engineering Dec 2021
Andhra University, Visakhapatnam

B.Tech, Mechanical Engineering Nov 2018
Raghu Engineering College, Visakhapatnam

10th Grade March 2012
Rama Krishna Public School, Visakhapatnam
